Custom shortcuts

You can customize keyboard shortcuts in Kiro by using the following instructions:

1. Open the Command Palette
(`Cmd+Shift+P` / `Ctrl+Shift+P`).
2. Search for **Keyboard Shortcuts**.
3. Select **Preferences: Open Keyboard Shortcuts**.
4. Select the command that you want to modify.
5. Choose the pencil icon and enter your preferred shortcut.

This allows you to create a personalized workflow that matches your preferences and habits from other editors.
